
Professional Summary

Motivated and enthusiastic Computer Engineering student with a strong foundation in C++, Data Structures, Object-Oriented Programming, and Web Development. Passionate about building real-world software solutions and continuously learning new technologies. Seeking a Software Development Internship where I can apply my programming skills, contribute to impactful projects, and gain valuable industry experience while growing as a software engineer.

Education

Vishwakarma Institute of Technology

B.Tech, Computer Science and Engineering in Artificial Intelligence (CGPA: 8.89)

Pune, Maharashtra

(Expected) June 2028

Vishweshwaraya Abhiyantriki Padvika Mahavidyalaya

Computer Engineering (Percentage: 92.46%)

Latur, Maharashtra

July 2022 – June 2025

Experience

Industrial Trainee | Technosoft Digital Space, Latur

(June '24 – July '24)

Completed a six-week Industrial Training program and gained hands-on experience in software development and project implementation. Improved programming, problem-solving, and teamwork skills through practical assignments and real-world learning.

Projects – [VIEW ALL HERE](#)

1. Project: Smart Glasses for Blind People Using Arduino (IOT)

Technologies involved: Arduino Nano, Ultrasonic Sensor, Embedded C

Responsibilities:

- Built a wearable IoT device that detects obstacles using ultrasonic sensors.
- Implemented real-time distance measurement and buzzer alerts using Arduino Nano.
- Designed a low-cost assistive solution to improve mobility for visually impaired User.

2. Project: College Exam Portal

Technologies involved: JSP, JDBC, MySQL, Apache Tomcat 10, HTML5, CSS3, JavaScript

Responsibilities:

- Developed a web-based examination portal for managing student records, exams, and results.
- Implemented user authentication and database connectivity using JSP, JDBC, and MySQL.
- Designed responsive interfaces for students and administrators using HTML, CSS, and JavaScript.

3. Project: Multi Data Structure Based Book Search Engine

Technologies involved: Java, Java Servlets, Apache Tomcat, HTML, CSS, JavaScript, Maven

Responsibilities:

- Developed a web-based Library Management System for searching and managing books.
- Implemented book search using **AVL Tree, Hash Table, Trie, and Max Heap** for faster data retrieval.

Technical Skills

- **Languages** | Python, JavaScript (Node.js/React), Java, C++, SQL.
- **Frameworks** | React, Spring Boot, Fast API, Express.js.
- **Databases** | MongoDB, MySQL
- **Libraries** | Pandas, Matplotlib, TailwindCSS
- **AI-Assisted Coding Tools** | ChatGPT, GitHub Copilot, Cursor AI, Blackbox AI, Claude AI
- **Developer Tools** | Git, GitHub, VS Code, IntelliJ Idea, Android Studio, Jupyter Notebook

Certifications/Awards & Publications

Publications

- **"Smart Glasses for Blind People Using Arduino"** — IJAR SCT, Vol. 5, Issue 8 (March 2025), ISSN: 2581-9429
- **"Crop Disease Detection and Recommendation System for Indian Agriculture"** — AI4GreenWorld 2026 International Conference, Springer Nature (April 2026)

Certification & Achivements

- **National-Level Hackathon Participant** – RSM-Hackathon-S25, Rajarshi Shahu Mahavidyalaya (2025)
- **Top 20 Finalist** – Hack-O-Verse '26, GDG Vishwakarma Institute of Technology (Team LogicLift)
- **Workshop Certification:** "Beyond Prompts – Orchestrating Multi-Agent AI with Google ADK" — AI Student Forum & IEEE CTSoc, Vishwakarma Institute of Technology (Feb 2026)
- Full-Stack Development: React, Next.js, Node.js – Udemy
- Explore Machine Learning with TensorFlow – Infosys Springboard
- Generative AI Content Creation – Adobe (Coursera)

Personal Details:

- Date of Birth: 15-08-2004
- Languages Known: English, Hindi and Marathi.
